

**March 4, 2024**

Appointment of Mr. Heinz Isler to the Advisory Board

**Toronto ON, Geneva CH, March 4, 2024** – HoldCo Markets Advisory Inc (HCM) is pleased to announce the appointment of Heinz Isler to its Advisory Board.

With a capital markets career spanning nearly five decades, Mr. Isler brings a wealth of experience and contacts given his experience devoted to institutional equity sales, specializing in the mining and energy sectors.

“I have known and have worked with Heinz since 2008 and am thrilled to have him included on our Advisory Board. As we continue to build partnerships on both sides of the Atlantic, Heinz’s knowledge of the mining sector along with his deeply rooted European institutional contacts will be a net positive to both ourselves and our clients alike” said Michael Wichterle, HCM Director. “Heinz has been instrumental in not just placing significant amounts of Canadian energy and mining equity offerings with European based institutional investors, but for also organizing hundreds of marketing roadshows, connecting Canadian management teams with European investors”.

Heinz started his career at Swiss Bank Corporation (UBS) and has held leadership positions in charge of equity sales/trading desks covering continental Europe largely from Switzerland for Richardson Greenshields (for twenty-three years until acquisition by RBC), followed by nine years each at Scotia Capital and National Bank Financial. Heinz is based in Geneva.
